

**Karolinska
Institutet**

Department of Learning, Informatics, Management and Ethics (LIME)
Centre for Medical Education (CME)

Certificate

This is to certify that

Abbas Cheddad

Has passed the course Teaching and Learning in Higher Education offered by the Centre for Medical Education (CME) at Karolinska Institutet during the spring of 2013.
The course was equivalent to five weeks university studies.

The aims of the course are to enhance professional competence as a university teacher and to stimulate a reflective teaching practise. The philosophy of the course is based on experiential learning, reflective practise and active collaborative learning. Learning outcomes of the course were achieved by

- Analyze teaching situations and discuss your own teaching role in the specific situation.
- Apply theory and research on teaching and learning to the planning of a teaching occasion (TO). Motivate choices for design in accordance with principles of teaching and learning.
- Demonstrate an understanding of the principles of outcome based education and how these influence the planning of your own teaching.
- Demonstrate understanding of how to facilitate student learning in different teaching situations
- Be able to use educational concepts and principles in discussions of teaching and learning in Higher Education
